

Measuring

Please start first by reading the measuring information and gathering all the tools you will need to complete the measuring.

How to Determine Step Location

Measurement of step location is determined by standing in the shallow end facing the deep end of the pool.

WHAT YOU NEED

- Measure Forms
- 100 ft. fiberglass tape
- Bucket of kids colored sidewalk chalk
- Two 3 ft. lengths of threaded rod or re-bar
- Polaroid or digital camera
- Pen and note paper
- Big hammer
- Duct tape

TIPS FOR GETTING THE PERFECT FIT

- Write all measurements clearly.
- Check your measurements twice
